DETAILED ACTION

1. Claims 1-24 have been examined.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claims 3 and 18** are rejected under 35 USC 112 2nd paragraph, because the relationship between “inventory items” and “items” in claims 2 and 17 is unclear.

4. The following is a quotation of the fourth paragraph of 35 U.S.C. 112:

Subject to the following paragraph, a claim in dependent form shall contain a reference to a claim previously set forth and then specify a further limitation of the subject matter claimed. A claim in dependent form shall be construed to incorporate by reference all the limitations of the claim to which it refers.

5. **Claims 2-14 and 16-24** are rejected under 35 USC 112 4th paragraph as these claims contain only non-functional descriptive material, which is non-limiting and thus do not further limit the independent claim. See MPEP 2106 IV B 1 “Nonfunctional descriptive material” includes but is not limited to music, literary works and a compilation or mere arrangement of data.’

Claim Rejections - 35 USC § 101

6. 35 U.S.C. 101 reads as follows:

Art Unit: 2164

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

7. **Claims 1-24** are rejected under 35 USC 101 as the claims are directed towards a compilation and mere arrangement of data and are thus non-statutory. See MPEP 2106 IV B 1 “Nonfunctional descriptive material” includes but is not limited to music, literary works and a compilation or mere arrangement of data.’ The claims do not provide any manipulation of the data, nor do they provide a useful, concrete, and tangible result, as they pertain to a mere database schema.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
